

# BE STRONG – Be Strong

Chazak, chazak, v'nit chazeik

The day is done  
The task complete  
You proved that you can shine  
Your glow fills those around you  
And their words echoed through your life

Oh, be strong, be strong, be strengthened  
Be strong, be strong, be strengthened

Sometimes we do what's easy  
Rather than take the time to care  
Sometimes what's right is hard to do  
And now for this you'll be prepared

Oh, be strong, be strong, you will be strengthened

Look up, look out  
Behind you and beyond  
We strengthen one another  
Our voices join in righteous song

Be strong, be strong, be strengthened  
We will be strong, be strong  
We will be strengthened

When you have to make a choice  
Think of those who came before  
This wish for you will help you  
To remember *l'dor vador*

If this moment is of happiness  
Or maybe it's a moment of pain,  
Remember you don't stand alone  
Now, take strength as link in this wonderful chain

Be strong, be strong, be strengthened
